EDUCATION

University of Minnesota, Twin Cities

Expected May 2026

Carlson School of Management

Minneapolis, MN

- Bachelor of Science in Business, Supply Chain & Operations Management, Management Information Systems, Business Analytics
- W&S Hodder Scholar | Dean's List | GPA 3.81

WORK EXPERIENCE

Cajun House

June 2023 – Present

Front End Manager

Minneapolis, MN

- Oversaw high-volume in-person and online orders during peak hours, driving a 25% increase in online order revenue and a 13% boost in customer satisfaction.
- Monitored inventory levels and adjusted stock based on demand patterns, reducing waste, preventing shortages, and supporting cost control during high-volume service periods.

Carnegie Mellon University / UnitedHealth Group Optum

June 2025 – July 2025

Healthcare Analytics Research Intern

Pittsburgh, PA

- Collaborated in a 3-person team under PhD mentorship, analyzing county-level healthcare data to identify resource allocation and public health patterns.
- Applied statistical modeling and data analysis techniques across 3,000+ U.S. counties and 700+ variables to support evidence-based recommendations.

PROJECTS

Trilliant Demand Forecasting

March 2026 – May 2026

Demand Planning Analytics Lead

Minneapolis, MN / Little Chute, WI

- Conducted real-client demand forecasting on Nurri, Dutch Bros, and Aspen Ridge SKUs, applying Forecast Value Added (FVA) diagnostics to identify where planner overrides were adding or destroying accuracy.
- Used wMAPE, RMSE, and tracking signals to detect forecast bias and recommend where planners should focus attention.

SAP S/4HANA Enterprise Systems Case Work

February 2026 – April 2026

ERP Business Process Analyst

Minneapolis, MN

- Completed SAP S/4HANA case work covering procure-to-pay accounts payable processes, including vendor invoice entry, three-way match, payment run, and posting.
- Executed order-to-cash process steps using Global Bike Inc., including sales order creation, delivery, picking, goods issue, billing, and payment receipt.

LEADERSHIP & ACTIVITIES

University of Minnesota CCAPS – Pura Vida Consulting

January 2026

Student IT & Systems Consultant

San Ramon, Costa Rica

- Applied cross-functional systems thinking to analyze workflows, information flow, and operational bottlenecks at a senior living facility.
- Developed practical recommendations for technology continuity, digital recordkeeping, website rollout, and low-cost operational improvements.

SKILLS

- **Core Skills:** Demand Forecasting, Inventory Management, Supply Chain Planning, Operations Analysis, Process Improvement, Lean Six Sigma
- **Tools:** Excel, SAP S/4HANA, SAP Fiori, R, SQL, Tableau, Python, GitHub
