EDUCATION

University of Minnesota, Twin Cities

Expected May 2026

Carlson School of Management

Minneapolis, MN

- Bachelor of Management Information Systems - Supply Chain Management - Business Analytics
- W&S Hodder Scholar
- Dean's List - GPA 3.81

RELEVANT COURSEWORK

- Machine Learning and Responsible AI - Data Modeling and Databases - Interactive Data Visualization - Intermediate Programming - Race, Power, and Justice in Business - Business Communication

WORK EXPERIENCE

Cajun House

June 2023 – Present

Front End Manager

Minneapolis, MN

- Managed and supervised front-of-house staff, delegating tasks and ensuring efficient operations while maintaining strong communication.
- Directed high-volume in-person and online orders during peak hours, improving efficiency and driving a 25% increase in online revenue and 13% higher customer satisfaction.

Carnegie Mellon University/UnitedHealth Group Optum

June 2025 – July 2025

Healthcare Analytics Research Intern

Pittsburgh, PA

- Analyzed large-scale public health datasets in R and Excel, uncovering key health trends and producing actionable recommendations for strategic decision-making.
- Presented advanced modeling results to industry experts through live sessions, posters, and technical reports, translating complex analytics into clear, accessible findings for diverse stakeholders.
- Engineered reproducible workflows in R, Quarto, and Git, automating reporting processes and improving data accuracy for decision-making. ([thomaskim7241.github.io](https://github.com/thomaskim7241)).

LEADERSHIP & ACTIVITIES

Carnegie Mellon University/UnitedHealth Group Optum

June 2025 – July 2025

Predictors of Substance Abuse Outcomes Capstone Project

Pittsburgh, PA

- Applied advanced ML methods (LASSO, Huber regression, Random Forests, Elastic Net) on 3,000+ U.S. counties and 700+ variables for predictive modeling.
- Engineered data cleaning pipelines and created visualization (heatmaps, choropleth maps, network diagrams) to communicate insights across audiences.

Business Association of Multicultural Students

September 2023 – Present

Professional Committee Member

Minneapolis, MN

- Coordinated and executed professional development programs, including skill-building workshops and networking events, to expand members' career readiness and exposure to corporate opportunities.
- Facilitated initiatives that fostered collaboration across multicultural student groups, strengthening community engagement and building inclusive professional networks.

SKILLS

- **Core Skills:** Statistical Modeling, Data Visualization, Entity-Relationship Modeling, Predictive Modeling
- **Tools:** R(Advanced), Qmd, SQL, Python, Quarto, Github, Excel, Microsoft Office Suite
